

K-LOVE is the only commercial-free, Christian radio station that I can receive in my area. Christian music is a vital part of my family's daily praise and worship. Without it, we would have to settle for "something less" which I know our Lord and Savior doesn't want us to do. If some other format was placed on an LPFM, I fear it would be just one more way to detract us from our time with our Creator. I see more and more K-LOVE stickers on car bumpers, windows, briefcases, etc. These stickers open vital doors to Christian witnessing and fellowship. Without the station, we have one less common ground to meet on. This can't be viewed as a positive step for the public in general.

In closing, I really don't think it will do much good for the public to have one more station advertising used cars on Sunday. We need the positive, encouraging programming of K-LOVE!

Thanks for the chance to give you my 2 cents.
God bless.
